## EXPERIENCE

### Freelance web developer - Mukono, Uganda

Sept 2022 - today

I build projects of my own and for the client I work for from mostly web applications.

## EDUCATION

### Uganda Technology And Management University, Uganda — *Diploma*

Sept 2019 - today

Working on a diploma in Computing

## SKILLS

JavaScript,  
Html,  
Css,  
Nuxt.js,  
Vue.js,  
Firebase,  
Figma,  
Ionic,  
Capacitor.js,  
Node.js

## PROJECTS

### Poyi Uganda Cleaners — *A ugandan cleaning company*

I built a website (web app) with Nuxtjs and Firebase Its mostly information based and allows clients to reach the company.

### Lionking Safari LTD — *Ugandan Tour Company*

I built this web app with Nuxt, firebase and imagekit for image optimization for the gallery. Plus also has a admin panel for the company admins

### Caalee — *A wallpaper platform*

Built with Nuxt and imagekit. With this one I needed node.JS. For the mobile app's backend api. The web app uses Nuxt's Nitro server. Both apps allow users to view icon wallpapers and download them and view all the wallpapers. For the mobile app, also set as wallpaper.

## LANGUAGES

English

## **On The Job Uganda** — *A Ugandan service based platform*

Built with Nuxt and Firebase and imagekit for image optimisation. I also created a mobile app for the platform for users to easily access service providers on their mobile devices.

## **Tour Guides Forum Uganda** — *Tour Guides association.*

A web application for the tour guides association in Uganda. This has a lot of data.
